Following are the day-care treatments covered under this policy (treatments done within 24 hours).

Infections		· Hou	115).
Anti-Rabies Vaccination Coronary angiography Coronary angiography Coronary angioplasty Dilatation & Curettage ERCP (Endoscopic Retrograde Cholangiopancreatography) ESWL (Extracorporeal Shock Wave Lithotripsy) Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) Corrective surgery for blepharoptosis when not congenital/cosmetic Corrective Surgery for entropion/ectropion Dacryocystorhinostomy [DCR] Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations of canthus and epicanthus when done for adhesions due to chroni Infections Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		1	Adenoidectomy
Coronary angiography Coronary angiography Coronary angioplasty Dilatation & Curettage ERCP (Endoscopic Retrograde Cholangiopancreatography) ESWL (Extracorporeal Shock Wave Lithotripsy) Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: A Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) Corrective surgery for blepharoptosis when not congenital/cosmetic Corrective Surgery for entropion/ectropion Dacryocystorhinostomy [DCR] Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea R Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		2	Appendectomy
Coronary angioplasty Dilatation & Curettage ERCP (Endoscopic Retrograde Cholangiopancreatography) ESWL (Extracorporeal Shock Wave Lithotripsy) Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) Corrective surgery for blepharoptosis when not congenital/cosmetic Corrective Surgery for entropion/ectropion Dacryocystorhinostomy [DCR] Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations for pterygium Joperations of canthus and epicanthus when done for adhesions due to chroni Infections Kemoval of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Repentrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		3	Anti-Rabies Vaccination
Dilatation & Curettage FRCP (Endoscopic Retrograde Cholangiopancreatography) ESWL (Extracorporeal Shock Wave Lithotripsy) Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) Corrective surgery for blepharoptosis when not congenital/cosmetic Corrective Surgery for entropion/ectropion Dacryocystorhinostomy [DCR] Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations for pterygium Operations of canthus and epicanthus when done for adhesions due to chroni Infections Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		4	Coronary angiography
ERCP (Endoscopic Retrograde Cholangiopancreatography) ESWL (Extracorporeal Shock Wave Lithotripsy) Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) Corrective surgery for blepharoptosis when not congenital/cosmetic Corrective Surgery for entropion/ectropion Dacryocystorhinostomy [DCR] Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations for pterygium Joperations of canthus and epicanthus when done for adhesions due to chroni Infections Kemoval of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Repenetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		5	Coronary angioplasty
ESWL (Extracorporeal Shock Wave Lithotripsy) Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: A Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) B Corrective surgery for blepharoptosis when not congenital/cosmetic C Corrective Surgery for entropion/ectropion D Dacryocystorhinostomy [DCR] E Excision involving one-fourth or more of lid margin, full-thickness F Excision of lacrimal sac and passage G Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage I Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision R Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea P Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		6	Dilatation & Curettage
Excision of Cyst/granuloma/lump FOLLOWING EYE SURGERIES: A Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) B Corrective surgery for blepharoptosis when not congenital/cosmetic C Corrective Surgery for entropion/ectropion D Dacryocystorhinostomy [DCR] E Excision involving one-fourth or more of lid margin, full-thickness F Excision of lacrimal sac and passage G Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage I Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision M Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		7	ERCP (Endoscopic Retrograde Cholangiopancreatography)
FOLLOWING EYE SURGERIES: A Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) B Corrective surgery for blepharoptosis when not congenital/cosmetic C Corrective Surgery for entropion/ectropion D Dacryocystorhinostomy [DCR] E Excision involving one-fourth or more of lid margin, full-thickness F Excision of lacrimal sac and passage G Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage I Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision M Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		8	ESWL (Extracorporeal Shock Wave Lithotripsy)
A Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens) B Corrective surgery for blepharoptosis when not congenital/cosmetic C Corrective Surgery for entropion/ectropion D Dacryocystorhinostomy [DCR] E Excision involving one-fourth or more of lid margin, full-thickness F Excision of lacrimal sac and passage G Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage I Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea R Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		9	Excision of Cyst/granuloma/lump
Intra Ocular Lens) Corrective surgery for blepharoptosis when not congenital/cosmetic Corrective Surgery for entropion/ectropion Dacryocystorhinostomy [DCR] Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		10	FOLLOWING EYE SURGERIES:
C Corrective Surgery for entropion/ectropion D Dacryocystorhinostomy [DCR] E Excision involving one-fourth or more of lid margin, full-thickness F Excision of lacrimal sac and passage G Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage I Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision L Removal of a deeply embedded foreign body from the cornea with incision M Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye C Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea P Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		A	Cataract Surgery (Extra Capsular Cataract Excision or Phacoemulsification + Intra Ocular Lens)
D Dacryocystorhinostomy [DCR] E Excision involving one-fourth or more of lid margin, full-thickness F Excision of lacrimal sac and passage G Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage I Operations for pterygium J Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		В	Corrective surgery for blepharoptosis when not congenital/cosmetic
Excision involving one-fourth or more of lid margin, full-thickness Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations for pterygium Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision M Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		C	Corrective Surgery for entropion/ectropion
Excision of lacrimal sac and passage Excision of major lesion of eyelid, full-thickness Manipulation of lacrimal passage Operations for pterygium Operations of canthus and epicanthus when done for adhesions due to chroni Infections Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		D	Dacryocystorhinostomy [DCR]
Excision of major lesion of eyelid, full-thickness H Manipulation of lacrimal passage Operations for pterygium Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		E	Excision involving one-fourth or more of lid margin, full-thickness
H Manipulation of lacrimal passage Operations for pterygium Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		F	Excision of lacrimal sac and passage
Operations for pterygium Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		G	Excision of major lesion of eyelid, full-thickness
Operations of canthus and epicanthus when done for adhesions due to chroni Infections K Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye N Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma 11 Pacemaker insertion 12 Turbinectomy/turbinoplasty 13 Excision of pilonidal sinus 14 Therapeutic endoscopic surgeries		Н	Manipulation of lacrimal passage
Removal of a deeply embedded foreign body from the conjunctiva with incision Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Repearating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		1	Operations for pterygium
Removal of a deeply embedded foreign body from the cornea with incision Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		J	Operations of canthus and epicanthus when done for adhesions due to chronic Infections
M Removal of a foreign body from the lens of the eye Removal of a foreign body from the posterior chamber of the eye Repair of canaliculus and punctum Repair of corneal laceration or wound with conjunctival flap Repair of post-operative wound dehiscence of cornea Repeatrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		K	Removal of a deeply embedded foreign body from the conjunctiva with incision
N Removal of a foreign body from the posterior chamber of the eye O Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea P Penetrating or Non-Penetrating Surgery for treatment of Glaucoma P Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		L	Removal of a deeply embedded foreign body from the cornea with incision
O Repair of canaliculus and punctum P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/turbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		М	Removal of a foreign body from the lens of the eye
P Repair of corneal laceration or wound with conjunctival flap Q Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		N	Removal of a foreign body from the posterior chamber of the eye
Repair of post-operative wound dehiscence of cornea Penetrating or Non-Penetrating Surgery for treatment of Glaucoma Pacemaker insertion Turbinectomy/tułbinoplasty Excision of pilonidal sinus Therapeutic endoscopic surgeries		0	Repair of canaliculus and punctum
R Penetrating or Non-Penetrating Surgery for treatment of Glaucoma 11 Pacemaker insertion 12 Turbinectomy/tułbinoplasty 13 Excision of pilonidal sinus 14 Therapeutic endoscopic surgeries	-	Р	Repair of corneal laceration or wound with conjunctival flap
11 Pacemaker insertion 12 Turbinectomy/tuł binoplasty 13 Excision of pilonidal sinus 14 Therapeutic endoscopic surgeries		Q	Repair of post-operative wound dehiscence of cornea
12 Turbinectomy/tułbinoplasty 13 Excision of pilonidal sinus 14 Therapeutic endoscopic surgeries		R	Penetrating or Non-Penetrating Surgery for treatment of Glaucoma
13 Excision of pilonidal sinus 14 Therapeutic endoscopic surgeries		11	Pacemaker insertion
14 Therapeutic endoscopic surgeries		12	Turbinectomy/tułrbinoplasty
		13	Excision of pilonidal sinus
15 Conisation of the uterine cervix		14	Therapeutic endoscopic surgeries
		15	Conisation of the uterine cervix

- T	Late Le		
	16	Medically necessary Circumcision	
	17	Excision or other destruction of Bartholin's gland (cyst)	
	18	Nephrotomy	
	19	Oopherectomy	
	20	Urethrotomy	
	21	PCNL(percutaneous nephrolithotomy)	
	22	Reduction of dislocation under General Anaesthesia	
	23	Transcatheter Placement of Intravascular Shunts	
	24	Incision Of The Breast, lump excision	
	25	Vitrectomy	
	26	Thyriodectomy	
	27	Vocal cord surgery	
	28	Stapedotomy	
	29	Tympanoplasty& revision tympanoplasty	
	30	Arthroscopic Knee Aspiration if Proved Therapeutic	
	31	Perianal abscess Incision & Drainage	
	32	DJ stent insertion	
	33	FESS (Functional Endoscopic Sinus Surgery)	
	34	Fissurectomy / Fistulectomy	
	35	Fracture/dislocation excluding hairline fracture	
	36	Haemo dialysis	
	37	Hydrocelectomy	
	38	Hysterectomy	
	39	Inguinal/ventral/ umbilical/femoral hernia repair	
	40	Laparoscopic Cholecystectomy	
	41	Lithotripsy	
	42	Liver aspiration	
	43	Mastoidectomy	
	44	Parenteral chemotherapy	
	45	Haemorrhoidectomy	
	46	Polypectomy	
	47	FOLLOWING PROSTATE SURGERIES	
	Α	TUMT(Transurethral Microwave Thermotherapy)	
	В	TUNA(Transurethral Needle Ablation)	
	С	Laser Prostatectomy	
	D	TURP(transurethral Resection of Prostate)	
	Е	Transurethral Electro-Vaporization of the Prostate(TUEVAP)	
	48	Radiotherapy	
	49	Sclerotherapy	
	50	Septoplasty	
	-		_

51	Surgery for Sinusitis
52	Varicose Vein Ligation
53	Tonsillectomy
54	Surgical treatment of a varicocele and a hydrocele of the spermatic cord
55	Retinal Surgeries
56	Ossiculoplasty
57	Ascitic/pleural therapeutic tapping
58	therapeutic Arthroscopy
59	Mastectomy
60	Surgery for Carpal Tunnel Syndrome
61	Cystoscopic removal of urinary stones / DJ stents
62	AV Malformations (Non cosmetic only)
63	Orchidectomy
64	Cystoscopic fulguration of tumour
65	Amputation of penis
66	Creation of Lumbar Subarachnoid Shunt
67	Radical Prostatectomy
68	Lasik surgery (non-cosmetic)
69	Orchidopexy (non-congenital)
70	Nephrectomy .
71	Palatal surgery
72	Stapedectomy& revision of stapedectomy
73	Myringotomy
74	Or any other surgeries / procedures agreed by the TPA and the Company which require less than 24 hours Hospitalisation and for which prior approval from TPA is mandatory.
