**Seminar Course**

**Instructor**

S. Venugopal

Email: [svgpal@iisc.ac.in](mailto:svgpal@iisc.ac.in)

**Teaching Assistant**

Email:

**Department: Chemical Engineering**

Course Time: M 11-12

Lecture venue: Chemical Engineering Classroom

Detailed Course Page: <http://venuiisc.wixsite.com/lab2a/courses>

## **Announcements**

### **Brief description of the course**

This Course aims to help students in preparing, presenting and participating in seminars. The students will give seminars on chemical engineering related topics chosen in consultation with the faculty

### **Prerequisites**

Chemical Engineering Graduate students

### **Syllabus**

Assigned journal articles from Peer-reviewed articles related to technical aspects of chemical engineering..

Each student will deliver two seminars during the course and act as an audience for other speakers in the course.

### **Course outcomes**

The students will be able to deliver well-organised technical presentations at conferences and other symposia.

### **Grading policy**

participation in class â€“ 10%,

first presentation â€“ 30%,

second presentation â€“ 60%

## **Assignments**
