

To Whom It May Concern

A Request For Quote (RFQ) from domestic (India based) manufacturers for the supply for a Electrophysiology System Quartz Glass Micropipette Puller, as part of a limited tender for the Center for Neuroscience (CNS) in IISc.

Procedure:

1. Please submit the proposal by email to the address specified at the end of this tender.
2. The deadline for submission of proposals is **3rd March, Thursday**, by 5 pm.
3. The technical proposal should contain a compliance table beside the technical specifications listed in the description section below.
4. The compliance table should include all the items and in the same order. The first column should describe your compliance in a "Yes" or "No" response. If "No," the second column should state the extent of the deviation. The "third" column should state the reasons for the deviation, if any. The fourth column can be used to compare your solution with that of your competitors or provide details as requested in the technical requirements table below.

	Description	Specifications
1.	Electrophysiology System Quartz Glass Micropipette Puller	For Fused quartz and silica glass micropipette puller suitable for patch-clamp slice electrophysiology experiments
2.	Heating mechanism	Regular butane gas
3.	Flame Control	Precision flame control with focusing
4.	Programmable sequences	>90
5.	Tip length Setting	Yes with horizontal double sided precise pulling mechanism
