Short Summary

The Indian Institute of Science is a premier research and academic institution of higher learning in the Country having more than 500 faculty, 4000 students and 1000 support staff in its sprawling campus of around 400 acres. The Institute also hosts a large number of National/International Conferences, Workshops, Seminars, Symposia, Training programs on its campus.

The Solid waste including e-waste, sanitary waste, wet waste and other waste generated at the Institute is managed by the **Solid Waste Management Initiative of IISc (“SWaMII”)**. It was started in the year 2015 by keeping in mind the guidelines stipulated by the Karnataka State Pollution Control Board (KSPCB). The main objective is to develop a comprehensive Solid Waste Management (SWM) program/system for the collection, storage and disposal of solid waste generated on campus.

The goal of the SWM program is to segregate and channelize the waste being generated on campus for recycling, composting, energy production and incineration (of inerts) instead of land filling.

The Institute has established a **Resource Recovery Centre (RRC)** on the campus to collect, sort, process and store the waste until it is either disposed to recycling vendors or treated in-house. The secondary segregation of wastes is being done at the RRC. The solid waste, e-waste, sanitary waste and all other dry waste collected at RRC are disposed to recycling vendors.

Thus, IISc., Bangalore invites Indian agencies/vendors or their authorized Indian agency/ partners to submit a bid for the disposal of Solid waste from IISc campus. Duration of contract will be ONE year, may be extended till 3 years based on the performance and mutual agreement.

The hard copy of the bids must be addressed and sent to:
