

To whom it may concern

This is a **Request for quote (RFQ) from domestic (India-based) manufacturers only** for procurement of 2 numbers of 4-channel Arbitrary waveform generator (AWG) at the department of Electrical Communication Engineering (ECE), Indian Institute of Science, Bangalore.

All interested vendors shall submit a response demonstrating their capabilities to produce the requested equipment to the primary point of contact listed below. Quotation should come only from Indian Original Equipment Manufacturer (OEM) or their Indian authorized distributor. The quotations should be on FOR-IISc Bangalore basis in INR only.

With respect to this tender, the rules laid out by the Government of India in order No. P45021/2/2017-pp-BE-II issued by the Public Procurement Section, Department or Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, dated 4th June 2020 will be followed. As per this order, the government has defined a 'Class-I local supplier' as "a supplier or service provider whose goods, services or work offered for procurement, has local content equal to or more than 50%". A 'Class-II local supplier' is "a supplier or service provider, whose goods, services or works offered for procurement, has local content more than 20% but less than 50%". Only Class-I and Class-II local suppliers are eligible to participate in this open domestic tender. Any "Non-local supplier" i.e. "a supplier or service provider, whose goods, services or works offered for procurement, has local content less than 20%" is ineligible to participate in this tender.

Bidders offering imported products will fall under the category of non-local suppliers. They cannot claim themselves as Class-1 local suppliers/Class-2 local suppliers by claiming the services such as transportation, insurance, installation, commissioning, training, and other sales service support like AMC/CMC, etc., as local value addition.

Purchase preference as defined by the recent edits to GFR (within the "margin of purchase preference") will be given to the Class-1 supplier.

MSMEs can seek an exemption to some qualification criteria. IISc follows GFR2017 for such details.

The deadline for submission of proposals is **4th March 2024 by 5:00 PM**. Proposals should arrive at the office of **Dr. Varun Raghunathan, Department of Electrical Communication Engineering, Indian Institute of Science, Bangalore, Karnataka 560012, India**.

Direct all questions concerning the acquisition to **Dr. Varun Raghunathan** at: **varunr@iisc.ac.in** .

General Terms and Conditions:

1. The bid should be submitted in the two-cover system, i.e. technical bid and commercial bid separately in sealed covers. The technical bid should contain all commercial terms and conditions, except the price.
2. The technical bid must contain a point-by-point technical compliance document. The technical proposal should contain a compliance table that should describe your

compliance in a "yes" or "no" response against each of the items in the table listed in this RFQ. If "no" the second column should state the extent of deviation. The third column should state the reason for the deviation, if any. The fourth column can be used to compare your tool with that of your competitors or provide details as requested in the technical requirement table below.

3. In the commercial bid, the price should be inclusive of all discounts.
4. The vendor should have qualified technical service personnel for the equipment based in India (preferably in Bangalore).
5. The covering letter should clearly state the whether the vendor is a Class-I or Class-II local supplier. Failing this the bid will be automatically rejected.
6. The vendor to state the percentage of the local content and provide self-certification that the item offered meets the minimum local content requirement. They should also give details of the location(s) at which the local value addition is made.
7. The lead time for the delivery of the equipment should not be more than 3 months from the date of receipt of our purchase order. It should be clearly mentioned in the technical and commercial bids.
8. All the quotations must be valid for at least 90 days at the time of submission.
9. List of customers and references: The Bidder should have supplied similar equipment in Central Universities preferably in centrally Funded Technical Institutes (IITs, IISC, IISER, NIT) . Please provide the details and contact information.
10. The Bidder must not be blacklisted/banned/suspended or have a record of any service-related dispute with any organization in India or elsewhere. A declaration to this effect should be provided.
11. Items in addition to that listed in the technical table that you would like to bring to the attention of the committee, such as data sheets, technical plots etc. can be listed at the end of the compliance table.
12. Vendors are encouraged to highlight the advantage of their tools over comparable tools from the competitors.
13. If needed, a meeting for any technical clarifications can be scheduled with the undersigned by sending an email.
14. The Institute reserves the right to accept or reject any bid, or to annul the bidding process and reject all bids, at any time prior to the award of contract without thereby incurring any liability of the affected bidder or bidders.
15. Warranty terms and additional warranty options is a must for all the components. Please specify the service plan like whether the local distributor will address the issue or the parent company.
16. Terms and conditions for the annual maintenance contract beyond the warranty period should be mentioned.
17. After the award of purchase order, the vendor must provide an Order Acknowledgement within 30 days from the receipt of the Purchase Order.
18. Please quote the price of each optional line item, separately.

Technical Requirements:

Please note that the requirements and options listed below are only guidelines. It does not disbar bids that do not meet the criteria listed. Vendors are requested to quote for equipment that meet the criteria to the best extent possible and list deviations. Deviations are NOT an automatic reason for disqualification. They will be discussed by the technical committee prior to making an informed decision.

Technical Specifications	Values/ Range
Description	Arbitrary waveform generator (AWG) - Quantity: 2
No. of channels	Four
Analog bandwidth	≥ 2 GHz
Sampling rate	300 Samples/second to 2.5 Giga-samples/second - Variable (for each channel)
Rise/ fall time	≤ 120 pico-second (measured at 20-80% levels)
Bit resolution	≥ 16 bits
Effective number of bits	≥ 8 bits (specify the bandwidth range)
Analog output impedance	50 ohms
Analog output connector	SMA
Amplitude range	≥ 750 mVp-p (specify termination impedance) Include higher output voltages as options
Amplitude accuracy	$\leq \pm 2\%$
Amplitude offset	± 2 V (specify termination)
Amplitude offset accuracy	$\leq \pm 2\%$
Waveform memory	≥ 2 Giga-samples/channel
Waveform minimum size	≤ 2000 samples (waveform resolution to be specified)
Markers	At least 4 markers per each channel. Sampling rate, connector type, impedance, output voltage, timing characteristics to be specified
Modes of operation	Continuous, Gated, Triggered, Triggered continuous
Spurious free dynamic range	< -50 dBc (specify the bandwidth ranges)
Trigger inputs	To be specified
Clock in and out	To be included, frequency range, impedance, and amplitude to be specified. Should be compatible with the bandwidth mentioned above
Clock Accuracy	± 1 ppm
Clock resolution	8-bit resolution or better
Reference in and out	To be included, frequency range, impedance, and amplitude to be specified.
Auxiliary outputs	To be specified
Display size	To be specified
Interface and operating system	To be specified
Software Libraries and driver support	To be specified and included
Waveform import and export	Waveform file formats supported to be specified
Dimensions	To be specified

Operating temperature range	To be specified
Humidity range	To be specified
Mains output voltage and power consumption	To be specified

Other requirements:	
1.	Detailed test report supporting the above required specifications to be included with the equipment at the time of delivery
2.	Expected performance data sheets to be included with the technical bid
3.	Compatible operating system(s) for the interface software should be specified. Suitable software drivers available should be specified and made available
4.	Please include other options currently available which can be added
5.	Cost of shipping to Indian Institute of Science, Bangalore should be included
6.	Warranty terms to be specified in the commercial proposal and is subject to negotiations
7.	Payment terms to be specified in the commercial proposal and is subject to negotiations
8.	List of acceptance tests for on-site (vendor) inspection and after installation at IISc
9.	A set of basic experiments for performing routine checks of acceptable operation with clear instructions to be provided
10.	Please provide details of the number of trained personnel in India, number in southern region or in Bangalore who can service the instrument
11.	Service credentials: The supplier should have at least five similar installation in India. Customer list with contact details mandatory to prove your credential
12.	Authorisation letter from OEM manufacturer to be included
13.	Vendor must provide complete compliance statement against each technical point
