The system should be delivered, installed and made functional within 90 days from the date of receipt of purchase order. The supply of the items will be considered as effected only on satisfactory installation and inspection of the system and inspection of all the items and features/capabilities tested by the IISc, Bangalore. After successful installation and inspection, the date of taking over of entire system by the IISc, Bangalore shall be taken as the start of the warranty period. No partial shipment is allowed.

The bidder should also arrange for technical training to the local facility technologists and users.

I) Payment Terms:

The payments to non domestic vendors will be through a Letter of Credit and milestone of the payment will be determined after the mutual discussions with the successful bidder. As per GFR no advance payment can be made to domestic vendors, unless an equal amount of bank guarantee is provided.

J) Statutory Variation:

Any statutory increase in the taxes and duties subsequent to bidder's offer, if it takes place within the original contractual delivery date, will be borne by IISc, Bangalore subject to the claim being supported by documentary evidence. However, if any decrease takes place the advantage will have to be passed on to IISc, Bangalore.

K) Disputes and Jurisdiction:

Any legal disputes arising out of any breach of contract pertaining to this tender shall be settled in the court of competent jurisdiction located within the city of Bangalore, India.

L) General:

1. All amendments, time extension, clarifications etc., within the period of submission of the tender will be communicated electronically. No extension in the bid due date/time shall be considered on account of delay in receipt of any document(s) by mail.
2. The bidder may furnish any additional information, which is necessary to establish capabilities to successfully complete the envisaged work. It is however, advised not to furnish superfluous information.
3. The bidder may visit the installation site before submission of tender, with prior intimation.
4. All imported equipment should be quoted in the currency of the country of origin, and all locally sourced items should be quoted in Indian Rupees.

5. Any information furnished by the bidder found to be incorrect, either immediately or at a later date, would render the bidder liable to be debarred from tendering/taking up of work in IISc, Bangalore.

Section 4 – Technical Specifications

SINGLE -PHOTON AVALANCE DETECTORS(SPADs)

Two numbers of single-photon avalanche detectors (SPADs) which operate with optimum performance in the 600-900 nm wavelength range to perform single-photon level detection. Detectors with high sensitivity, high detection efficiency, low dark count and high saturation electron rate are preferred. These SPADs will have the following specifications:

1. Wavelength Range : 400 to 1000 nm.
2. Quantum Efficiency: > 40% at 500 nm, > 70% at 650 nm, > 50% at 830 nm, > 10% at 1000 nm.
3. Sensor active area diameter: 100-200 micrometer.
4. Supply Voltage: India-compatible power plug – 5V. Power supply to be included.
5. Dark count rate: < 100 counts /second (wavelength and other conditions to be specified).
6. Timing resolution: < 250 picosecond (conditions to be specified).
7. Optical Input: Free space.
8. Dead time: < 30 nanoseconds.
9. Output pulse format: TTL/ NIM format.
10. Output pulse width: < 20 nanoseconds.
11. Output pulse height: 2.2V .
12. Operation temperature: surrounding at Room temperature, Detector temperature <10 C.
13. Latency between input and output: Any latency between input and output to be specified.
14. Any cables, connectors or other accessories required to connect the time correlated single photon counting (TCSPC) electronics to SPAD: Must be included.

Other requirements:

1. Compatible operating system(s) for the interface software should be specified. Suitable software drivers available should be specified.
2. Software to control and process data from the detector: Must be included with capabilities for controlling, time-stamping, histogramming and programming.
3. List of acceptance tests for on-site (vendor) inspection and after installation at IISc.
4. Please also quote for two of TTL-to-NIM converters.
5. The system should have a user-friendly design for easy serviceability and troubleshooting. Components if not available under the consumables should be easily accessible for maintenance as and when needed.
6. All utilities for the installation of the system should be clearly stated.
7. The supplier and/or their representative should undertake to install and commission the system at the purchaser's laboratory in the event of order and demonstrate satisfactory performance. The installation and commissioning should be provided by the supplier or their representative. The supplier or their representative should have well-proven service capability on a similar system.
8. All the technical literature/catalogs of various sub-systems in English must accompany the quotation. In the event of an order, the manufacturer should undertake to supply all the documents including a complete system description, operation and service manuals, and full description of hardware and software used. A hard copy of all manuals including operations, maintenance, and service manual along with a drawing of main equipment and all its accessories should be provided.
9. The company should have a minimum of 4 nos. of supply reference of the similar system installed in India in government-funded institutions. The detailed Indian User reference list should be provided with contact details etc. The Company should provide 3

satisfactory certificates from the users in India that have 2 or more years of usage experience. Please note that the successful installation certificate is not considered a satisfactory certificate. The past service and satisfactory feedback of the manufacturer shall be one of the main criteria for decision making.

10. The company should have Trained Service engineers to provide after-sales support. Certificates of the trained engineers should be included with the quotation.

A. Training and demonstration

Training on the usage of the machine (hardware and software) must be demonstrated by the successful bidder at the bidder's cost to the end-users at IISc, Bangalore.
